1	the plan.	1	This lists the various
2	A. Right.	2	elements of the RADARS system. Can you
3	Q. And if you'll turn to	3	give a brief explanation of what those
4	page unfortunately it doesn't have	4	are?
5	pages. But if you flip to, it looks like	5	A. So the key informant network
6	it's about seven pages from the end, and	6	was a network I believe that was
7	you'll see there's a slide that says,	7	developed by Dr. Ted Cicero. And these
8	"Active surveillance."	8	were individuals who worked with people
9	A. With the three bullets on	9	who abused products and they were gaining
10	it?	10	information about specific products in
11	Q. Yes.	11	the form of a survey questionnaire. And
12	A. Okay.	12	those were those data were brought in
13	Q. Okay. The first of those is	13	and analyzed as part of one of the
14	RADARS, correct?	14	components of the RADARS system.
15	A. Yes.	15	The second one was a law
16	Q. And you said that that was a	16	enforcement network run by Dr. Inciardi.
17	surveillance resource that the company	17	And I believe this was information
18	incorporated into the plan when it became	18	collected from individuals working in law
19	available from Denver Health; is that	19	enforcement capacities from what they may
20	correct?	20	have heard about drug seizures, heard
21	A. That's correct.	21	other in areas where law enforcement
22	Q. And if you'll turn that	22	became aware of different types of opioid
23	was around what time, what year?	23	analgesics and other medications that may
24	A. Around 2006.	24	have been gotten involved because of
	D		
	Page 542		Page 544
1	Q. And I think as we saw in the	1	illegal-type activities.
2	Q. And I think as we saw in the earlier slide deck, RADARS had been	1 2	illegal-type activities. The AATOD, the American

The AATOD, the American Association For Treatment of Opioid Dependence looked at individuals coming in, I believe, on methadone maintenance, and having an understanding of those
2 3 4 5	Q. And I think as we saw in the earlier slide deck, RADARS had been maintained earlier as a proprietary service that was operated by Purdue?  A. Yes.  Q. When you incorporated RADARS into the system, did you did you	2 3 4 5	illegal-type activities.  The AATOD, the American Association For Treatment of Opioid Dependence looked at individuals coming in, I believe, on methadone maintenance,
2 3 4 5 6 7 8	Q. And I think as we saw in the earlier slide deck, RADARS had been maintained earlier as a proprietary service that was operated by Purdue?  A. Yes.  Q. When you incorporated RADARS into the system, did you did you purchase the earlier data that RADARS had	2 3 4 5 6 7 8	illegal-type activities.  The AATOD, the American Association For Treatment of Opioid Dependence looked at individuals coming in, I believe, on methadone maintenance, and having an understanding of those types of that type of activity and what are the what are the medications
2 3 4 5 6 7 8	Q. And I think as we saw in the earlier slide deck, RADARS had been maintained earlier as a proprietary service that was operated by Purdue?  A. Yes.  Q. When you incorporated RADARS into the system, did you did you purchase the earlier data that RADARS had collected?	2 3 4 5 6 7 8	illegal-type activities.  The AATOD, the American Association For Treatment of Opioid Dependence looked at individuals coming in, I believe, on methadone maintenance, and having an understanding of those types of that type of activity and what are the what are the medications that those individuals may have been
2 3 4 5 6 7 8 9	Q. And I think as we saw in the earlier slide deck, RADARS had been maintained earlier as a proprietary service that was operated by Purdue?  A. Yes.  Q. When you incorporated RADARS into the system, did you did you purchase the earlier data that RADARS had collected?  A. Yes. When we started doing	2 3 4 5 6 7 8 9	illegal-type activities.  The AATOD, the American Association For Treatment of Opioid Dependence looked at individuals coming in, I believe, on methadone maintenance, and having an understanding of those types of that type of activity and what are the what are the medications that those individuals may have been using and abusing, and the poison control
2 3 4 5 6 7 8 9 10	Q. And I think as we saw in the earlier slide deck, RADARS had been maintained earlier as a proprietary service that was operated by Purdue?  A. Yes.  Q. When you incorporated RADARS into the system, did you did you purchase the earlier data that RADARS had collected?  A. Yes. When we started doing surveillance with RADARS for Duragesic I	2 3 4 5 6 7 8 9 10	illegal-type activities.  The AATOD, the American Association For Treatment of Opioid Dependence looked at individuals coming in, I believe, on methadone maintenance, and having an understanding of those types of that type of activity and what are the what are the medications that those individuals may have been using and abusing, and the poison control network was part of the U.S. poison
2 3 4 5 6 7 8 9 10 11	Q. And I think as we saw in the earlier slide deck, RADARS had been maintained earlier as a proprietary service that was operated by Purdue?  A. Yes.  Q. When you incorporated RADARS into the system, did you did you purchase the earlier data that RADARS had collected?  A. Yes. When we started doing surveillance with RADARS for Duragesic I was interested in finding out what	2 3 4 5 6 7 8 9 10 11 12	illegal-type activities.  The AATOD, the American Association For Treatment of Opioid Dependence looked at individuals coming in, I believe, on methadone maintenance, and having an understanding of those types of that type of activity and what are the what are the medications that those individuals may have been using and abusing, and the poison control network was part of the U.S. poison control network.
2 3 4 5 6 7 8 9 10 11 12 13	Q. And I think as we saw in the earlier slide deck, RADARS had been maintained earlier as a proprietary service that was operated by Purdue?  A. Yes.  Q. When you incorporated RADARS into the system, did you did you purchase the earlier data that RADARS had collected?  A. Yes. When we started doing surveillance with RADARS for Duragesic I was interested in finding out what information, what was available, around	2 3 4 5 6 7 8 9 10 11 12	illegal-type activities.  The AATOD, the American Association For Treatment of Opioid Dependence looked at individuals coming in, I believe, on methadone maintenance, and having an understanding of those types of that type of activity and what are the what are the medications that those individuals may have been using and abusing, and the poison control network was part of the U.S. poison control network.  Q. All right. If you can turn
2 3 4 5 6 7 8 9 10 11 12 13	Q. And I think as we saw in the earlier slide deck, RADARS had been maintained earlier as a proprietary service that was operated by Purdue?  A. Yes.  Q. When you incorporated RADARS into the system, did you did you purchase the earlier data that RADARS had collected?  A. Yes. When we started doing surveillance with RADARS for Duragesic I was interested in finding out what information, what was available, around the fentanyl products that were done	2 3 4 5 6 7 8 9 10 11 12 13	illegal-type activities.  The AATOD, the American Association For Treatment of Opioid Dependence looked at individuals coming in, I believe, on methadone maintenance, and having an understanding of those types of that type of activity and what are the what are the medications that those individuals may have been using and abusing, and the poison control network was part of the U.S. poison control network.  Q. All right. If you can turn to the next few slides.
2 3 4 5 6 7 8 9 10 11 12 13 14	Q. And I think as we saw in the earlier slide deck, RADARS had been maintained earlier as a proprietary service that was operated by Purdue?  A. Yes.  Q. When you incorporated RADARS into the system, did you did you purchase the earlier data that RADARS had collected?  A. Yes. When we started doing surveillance with RADARS for Duragesic I was interested in finding out what information, what was available, around the fentanyl products that were done prior to us starting our subscription.	2 3 4 5 6 7 8 9 10 11 12 13 14	illegal-type activities.  The AATOD, the American Association For Treatment of Opioid Dependence looked at individuals coming in, I believe, on methadone maintenance, and having an understanding of those types of that type of activity and what are the what are the medications that those individuals may have been using and abusing, and the poison control network was part of the U.S. poison control network.  Q. All right. If you can turn to the next few slides.  A. By the way, we have one more
2 3 4 5 6 7 8 9 10 11 12 13 14 15	Q. And I think as we saw in the earlier slide deck, RADARS had been maintained earlier as a proprietary service that was operated by Purdue?  A. Yes.  Q. When you incorporated RADARS into the system, did you did you purchase the earlier data that RADARS had collected?  A. Yes. When we started doing surveillance with RADARS for Duragesic I was interested in finding out what information, what was available, around the fentanyl products that were done prior to us starting our subscription.  So we did have information that we did	2 3 4 5 6 7 8 9 10 11 12 13 14 15	illegal-type activities.  The AATOD, the American Association For Treatment of Opioid Dependence looked at individuals coming in, I believe, on methadone maintenance, and having an understanding of those types of that type of activity and what are the what are the medications that those individuals may have been using and abusing, and the poison control network was part of the U.S. poison control network.  Q. All right. If you can turn to the next few slides.  A. By the way, we have one more that was that may have been added
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Q. And I think as we saw in the earlier slide deck, RADARS had been maintained earlier as a proprietary service that was operated by Purdue?  A. Yes.  Q. When you incorporated RADARS into the system, did you did you purchase the earlier data that RADARS had collected?  A. Yes. When we started doing surveillance with RADARS for Duragesic I was interested in finding out what information, what was available, around the fentanyl products that were done prior to us starting our subscription.  So we did have information that we did purchase from them.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	illegal-type activities.  The AATOD, the American Association For Treatment of Opioid Dependence looked at individuals coming in, I believe, on methadone maintenance, and having an understanding of those types of that type of activity and what are the what are the medications that those individuals may have been using and abusing, and the poison control network was part of the U.S. poison control network.  Q. All right. If you can turn to the next few slides.  A. By the way, we have one more that was that may have been added later, which is the college survey.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Q. And I think as we saw in the earlier slide deck, RADARS had been maintained earlier as a proprietary service that was operated by Purdue?  A. Yes.  Q. When you incorporated RADARS into the system, did you did you purchase the earlier data that RADARS had collected?  A. Yes. When we started doing surveillance with RADARS for Duragesic I was interested in finding out what information, what was available, around the fentanyl products that were done prior to us starting our subscription.  So we did have information that we did purchase from them.  Q. And if you'll take a look at	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	illegal-type activities.  The AATOD, the American Association For Treatment of Opioid Dependence looked at individuals coming in, I believe, on methadone maintenance, and having an understanding of those types of that type of activity and what are the what are the medications that those individuals may have been using and abusing, and the poison control network was part of the U.S. poison control network.  Q. All right. If you can turn to the next few slides.  A. By the way, we have one more that was that may have been added later, which is the college survey. College survey.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Q. And I think as we saw in the earlier slide deck, RADARS had been maintained earlier as a proprietary service that was operated by Purdue?  A. Yes.  Q. When you incorporated RADARS into the system, did you did you purchase the earlier data that RADARS had collected?  A. Yes. When we started doing surveillance with RADARS for Duragesic I was interested in finding out what information, what was available, around the fentanyl products that were done prior to us starting our subscription.  So we did have information that we did purchase from them.  Q. And if you'll take a look at the next few slides. Well, let's start	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	illegal-type activities.  The AATOD, the American Association For Treatment of Opioid Dependence looked at individuals coming in, I believe, on methadone maintenance, and having an understanding of those types of that type of activity and what are the what are the medications that those individuals may have been using and abusing, and the poison control network was part of the U.S. poison control network.  Q. All right. If you can turn to the next few slides.  A. By the way, we have one more that was that may have been added later, which is the college survey. College survey.  Q. Can you explain what that
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Q. And I think as we saw in the earlier slide deck, RADARS had been maintained earlier as a proprietary service that was operated by Purdue?  A. Yes.  Q. When you incorporated RADARS into the system, did you did you purchase the earlier data that RADARS had collected?  A. Yes. When we started doing surveillance with RADARS for Duragesic I was interested in finding out what information, what was available, around the fentanyl products that were done prior to us starting our subscription.  So we did have information that we did purchase from them.  Q. And if you'll take a look at the next few slides. Well, let's start with the next slide actually. The one	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	illegal-type activities.  The AATOD, the American Association For Treatment of Opioid Dependence looked at individuals coming in, I believe, on methadone maintenance, and having an understanding of those types of that type of activity and what are the what are the medications that those individuals may have been using and abusing, and the poison control network was part of the U.S. poison control network.  Q. All right. If you can turn to the next few slides.  A. By the way, we have one more that was that may have been added later, which is the college survey. College survey.  Q. Can you explain what that is?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Q. And I think as we saw in the earlier slide deck, RADARS had been maintained earlier as a proprietary service that was operated by Purdue?  A. Yes.  Q. When you incorporated RADARS into the system, did you did you purchase the earlier data that RADARS had collected?  A. Yes. When we started doing surveillance with RADARS for Duragesic I was interested in finding out what information, what was available, around the fentanyl products that were done prior to us starting our subscription.  So we did have information that we did purchase from them.  Q. And if you'll take a look at the next few slides. Well, let's start with the next slide actually. The one that says, "Active surveillance RADARS."	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	illegal-type activities.  The AATOD, the American Association For Treatment of Opioid Dependence looked at individuals coming in, I believe, on methadone maintenance, and having an understanding of those types of that type of activity and what are the what are the medications that those individuals may have been using and abusing, and the poison control network was part of the U.S. poison control network.  Q. All right. If you can turn to the next few slides.  A. By the way, we have one more that was that may have been added later, which is the college survey. College survey.  Q. Can you explain what that is?  A. The college survey, I think,
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Q. And I think as we saw in the earlier slide deck, RADARS had been maintained earlier as a proprietary service that was operated by Purdue?  A. Yes.  Q. When you incorporated RADARS into the system, did you did you purchase the earlier data that RADARS had collected?  A. Yes. When we started doing surveillance with RADARS for Duragesic I was interested in finding out what information, what was available, around the fentanyl products that were done prior to us starting our subscription.  So we did have information that we did purchase from them.  Q. And if you'll take a look at the next few slides. Well, let's start with the next slide actually. The one that says, "Active surveillance RADARS."  A. Yes.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	illegal-type activities.  The AATOD, the American Association For Treatment of Opioid Dependence looked at individuals coming in, I believe, on methadone maintenance, and having an understanding of those types of that type of activity and what are the what are the medications that those individuals may have been using and abusing, and the poison control network was part of the U.S. poison control network.  Q. All right. If you can turn to the next few slides.  A. By the way, we have one more that was that may have been added later, which is the college survey. College survey.  Q. Can you explain what that is?  A. The college survey, I think, looked at the use of medications by
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Q. And I think as we saw in the earlier slide deck, RADARS had been maintained earlier as a proprietary service that was operated by Purdue?  A. Yes.  Q. When you incorporated RADARS into the system, did you did you purchase the earlier data that RADARS had collected?  A. Yes. When we started doing surveillance with RADARS for Duragesic I was interested in finding out what information, what was available, around the fentanyl products that were done prior to us starting our subscription.  So we did have information that we did purchase from them.  Q. And if you'll take a look at the next few slides. Well, let's start with the next slide actually. The one that says, "Active surveillance RADARS."  A. Yes.  Q. Let me make an attempt here	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	illegal-type activities.  The AATOD, the American Association For Treatment of Opioid Dependence looked at individuals coming in, I believe, on methadone maintenance, and having an understanding of those types of that type of activity and what are the what are the medications that those individuals may have been using and abusing, and the poison control network was part of the U.S. poison control network.  Q. All right. If you can turn to the next few slides.  A. By the way, we have one more that was that may have been added later, which is the college survey. College survey.  Q. Can you explain what that is?  A. The college survey, I think, looked at the use of medications by college students, not for whom the drugs
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Q. And I think as we saw in the earlier slide deck, RADARS had been maintained earlier as a proprietary service that was operated by Purdue?  A. Yes.  Q. When you incorporated RADARS into the system, did you did you purchase the earlier data that RADARS had collected?  A. Yes. When we started doing surveillance with RADARS for Duragesic I was interested in finding out what information, what was available, around the fentanyl products that were done prior to us starting our subscription.  So we did have information that we did purchase from them.  Q. And if you'll take a look at the next few slides. Well, let's start with the next slide actually. The one that says, "Active surveillance RADARS."  A. Yes.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	illegal-type activities.  The AATOD, the American Association For Treatment of Opioid Dependence looked at individuals coming in, I believe, on methadone maintenance, and having an understanding of those types of that type of activity and what are the what are the medications that those individuals may have been using and abusing, and the poison control network was part of the U.S. poison control network.  Q. All right. If you can turn to the next few slides.  A. By the way, we have one more that was that may have been added later, which is the college survey. College survey.  Q. Can you explain what that is?  A. The college survey, I think, looked at the use of medications by
